**WIRM**  
World Institute of  
Regenerative Medicine

**Dear Colleagues,**

It is with great pride and excitement that we announce that the World Institute of Regenerative Medicine (WIRM) has been established.

As a newly founded society, our mission is to integrate and structure the expanding knowledge surrounding regenerative medicine. We aim to create a centralized platform to promote cutting edge research, clinical advancements, and educational initiatives in this transformative area of medicine.

WIRM was established with a singular vision: to unite global leaders, researchers, clinicians, and innovators in the pursuit of advancing regenerative medicine for the benefit of human health.

We stand at the threshold of groundbreaking opportunities—to drive collaboration, inspire discovery, and shape the future of medicine.

Regenerative medicine holds the promise to transform lives by healing damaged tissues and organs, offering hope for countless individuals worldwide. Together, as a global community, we are committed to fostering excellence in research, ethical practice, and clinical translation.

**We are planning to have our first World Congress in April 23-25, 2026 in San Francisco, CA** to highlight the latest research, procedures, and technological breakthroughs in regenerative medicine.

We welcome our industry and pharmaceutical partners to showcase cutting-edge advances and state-of-the-art technologies on the common platform to present the latest research and implications for better patient care.

*Welcome to WIRM—where science, innovation, and technology converge.*

**Annu Navani, MD**  
Chair of WIRM

**Sudhir Diwan, MD**  
Vice-Chair of WIRM

**Douglas Beall, MD**  
Vice-Chair of WIRM

# GENERAL INFORMATION
